Venue

Hôpital Erasme - Campus Erasme
Route de Lennik 808 - 1070 Brussels

Access

Call for papers

Abstracts are to be submitted in English via e-mail before 30 October 2019

Instructions: www.erasme.ulb.ac.be/kine/congress

Registration fee

- **Pre-congress + Congress 7/02 & 8/02** (registration required): Professionals 140€ - Students 90€
- **Congress (8/02):**
 - Anticipative payment: Professionals 100€ - Students 50€
 - Payment at congress desk: Professionals 120€ - Students 60€

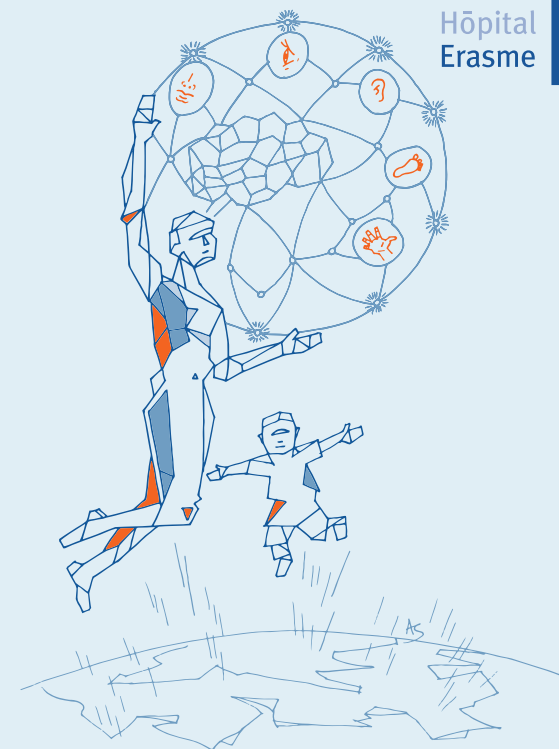

Congress organizer

Eric Brassinne, Clara Henrion, Michel Lamotte, Mathieu Tits

Scientific Committee

- Stéphane Baudry
- Brigitte De Bast
- Gaël Deboeck
- Nathalie Guissard
- Malgorzata Klass
- Michel Lamotte
- Dominique Mouraux
- Chloé Sauvage

Organized by the Physiotherapy Department of the Hôpital Erasme, in collaboration with the "Faculté des Sciences de la Motricité (ULB)"

INTERNATIONAL CONGRESS OF PHYSIOTHERAPY

08.02.2020

**Sensory Integration
in Physical Therapy**
From perception to treatment

Friday 7 February 2020

ICP 2020 organizes for the first time an educational Pre-Congress. Scientific update courses and practical workshops will be dedicated to sensory integration. As space is limited, pre-registration and payment is required in order to secure your place. Courses are not included in the congress fee.

PRE-CONGRESS PROGRAM 2020-02-07

Campus Erasme - Building N

1.00 → 2.00 pm	Sensorimotor Integration: Basic Principles and Practical Implications in Rehabilitation J. Duchateau
2.00 → 3.00 pm	Neuronal Oscillations and Sensorimotor Integration G. Cheron

Hospital Erasme - BUCOPA

3.00 → 4.00 pm	Work Shop: Non Invasive Hemodynamics and Sympathetic System Assessment * M. Lamotte
4.00 → 5.00 pm	Work Shop: Sensory Integration and Pain Assessment * D. Mouraux

* These workshops will be given twice, once in French and once in English

Saturday 8 February 2020

The congress will propose a transversal approach of sensory integration, from neurophysiological bases to patient treatment, through six main themes: childhood and development, aging and adaptations, pain, motor control, virtual world, perception of effort.

CONGRESS PROGRAM 2020-02-08

→ 8.30 AM: WELCOME

Auditorium 1

Conference chair	E. Brassinne
9.00 → 9.45 am	Sensorimotor Processing for Perception, Cognition and Action B. Dan – BE
9.45 → 10.00 am	Discussion

→ 10.00 – 10.30 AM: BREAK AND POSTERS EXHIBITION

Auditorium 1 CHILDHOOD AND DEVELOPMENT

Auditorium 2 AGING AND ADAPTATIONS

Chairs	J. Foucart	S. De Breucker
10.30 → 11.00 am	Developmental Singularity in Children Born Preterm * A. Buil – FR	Sensory Integration in Young and Older Adults Postural Control : the Moving Platform Illusion M. Dumas – UK
11.00 → 11.30 am	Developmental Care in Food Orality Disorders: an Issue of Probabilistic Epigenesis * B. Chevalier – FR	Foot Placement in Gait : the Role of Sensory Information and Impairments in Older Adults and Stroke Survivors J. van Diën – NL
11.30 → 12.00 am	Sensory Integration Therapy for Children : from Theory to Practice * S. Ray-Kaesler – CH	Snoezelen: Multisensory Integration in Older Patients * C. Berlemont – BE

* Session in french / session en français

→ 12.00 AM – 1.00 PM: LUNCH AND POSTERS EXHIBITION

Auditorium 1

Conference chair	V. Gangji
1.00 → 1.20 pm	The Use of the Self. The Body as an Intermediate in Care * C. Julien – FR
1.20 → 1.30 pm	Discussion

Auditorium 1 PAIN

Auditorium 2 MOTOR CONTROL

Chairs	T. Tuna	J. Duchateau
1.30 → 2.00 pm	Nociception, Pain and Mechanisms of Modulation C. Lenoir – UK	Using local vibration in neuromuscular rehabilitation : why and how ? T. Lapole – FR
2.00 → 2.30 pm	Disturbed Spatial Perception and Body Representation in Complex Regional Pain Syndrome L. Filbrich – BE	Evaluation of Ankle Proprioception by Destabilization Device * A. Aguilaniu – BE
2.30 → 3.00 pm	Hypnosis and Management of Acute and Chronic Pain * L. Evers – BE	Neuromuscular Coordination and Hamstring Injury Prevention: an Essential Alliance J. Schuermans – BE

→ 3.00 – 3.30 PM: BREAK + POSTERS EXHIBITION

Auditorium 1 VIRTUAL WORLD

Auditorium 2 PERCEPTION OF EFFORT

Chairs	C. Sauvage	G. Deboeck
3.30 → 4.00 pm	Screens and Young Children: Bad or Good? * J. Foucart – BE	Perception of Effort and Muscle Pain during Physical Exercise Pageaux – CAN
4.00 → 4.30 pm	Virtual Reality : an Innovating Tool in Neurorehabilitation * P-Y. Libois – BE	Effort Dyspnea and Cortical Activations * O. Van Hove – BE
4.30 → 5.00 pm	Can Virtual Reality Improve Real Life of the Elderly? B. Bonnechère – BE	Ventilation, Hemodynamics and Lungs: Which Relationship? * M. Vincenzi – IT

* Session in french / session en français

→ 5.00 PM: BEST POSTER AWARDS AND CONCLUSION (E. BRASSINNE)
